SUMMARY

Laravel Full Stack Developer with hands-on experience building scalable web applications, e-commerce dashboards, and Learning Management Systems using Laravel, PHP, MySQL, JavaScript, and Tailwind CSS. Skilled in RESTful API development, role-based access control with Spatie, and performance/database optimization for production-grade platforms. Also experienced as a Web Development Instructor, mentoring students in frontend development and version control best practices. Currently pursuing a Bachelor's degree in Computer Science while actively contributing to live client projects in e-commerce and custom packaging.

EXPERIENCE

Laravel Full Stack Developer

Present

Amentis Technology, Lahore

- Design and develop full-stack web applications using Laravel, PHP, MySQL, JavaScript, and Tailwind CSS.
- Built e-commerce dashboards, Learning Management Systems (LMS), and custom packaging platforms with role-based access control using Spatie.
- Implemented RESTful APIs, authentication/authorization, and secure database operations following MVC best practices.
- Developed responsive, user-friendly interfaces ensuring cross-browser and mobile compatibility.
- Integrated real-time features, data visualization, and custom dashboards to enhance user experience.
- Optimized application performance, scalability, and security through clean coding and efficient queries.
- Collaborated using Git/GitHub for version control and deployment workflows.
- Set up and maintained Linux-based (LAMP) development environments and handled Git/SSH-based deployment workflows, including Docker-based deployment to cloud platforms.

Web Development Instructor

2025 – Feb 2026

BN Foundation

- Delivered structured training in Frontend Development using JavaScript and Tailwind CSS, focusing on building strong UI/UX and modern web interfaces.
- Designed and taught comprehensive frontend concepts, emphasizing project-based learning through real-world applications.
- Mentored students in clean coding practices, debugging techniques, and Git/GitHub version control.
- Guided students in building professional portfolios and effective deployment strategies through workshops and one-on-one sessions.

PROJECTS

Flickpack

Present

Amentis Technology • flickpack.com

- Implemented conditional Schema.org structured data, supporting both automatic and admin-managed manual schema entries.
- Managed Git branch workflows (feature, redirect, and schema-related branches) for organized, reliable releases.
- Configured SSH key authentication and resolved server file-permission issues for smooth deployment.
- Contributed to Core PHP backend logic supporting dynamic, admin-controlled site content.

IMH Packaging

Present

Amentis Technology • imhpackaging.com

- Improved Core Web Vitals (LCP, FCP, TBT) by eliminating render-blocking resources and using preload/fetchpriority tags.
- Converted images to WebP format and configured .htaccess caching and Gzip compression to boost page speed.
- Configured LiteSpeed Cache and Autooptimize plugins, fine-tuning script deferral strategies for faster load times.
- Worked on displaying admin-managed products on the client-facing frontend with multi-category support.

Cable & Devices

cableanddevices.ae

- Rebuilt the site header and redesigned navigation from a mega menu into a clean, single-column vertical dropdown.
- Resolved CSS specificity conflicts with targeted overrides for consistent cross-browser styling.
- Integrated Icomoon icon fonts and built jQuery-based hover/dropdown interactions for improved UX.
- Customized the homepage slider and applied design changes via the Magento Admin design configuration panel.

EDUCATION

Bachelor of Science in Computer Science

The University of Lahore

Feb 2023 – Present

SKILLS

Frontend: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, Ajax

Backend: PHP, Laravel

Database: MySQL

Tools & Technologies: Git, GitHub, REST APIs, MVC Architecture

Soft Skills: Communication, Leadership, Critical Thinking, Team Collaboration
